## ***OUR SEASON OF THANKSGIVING***

2009 has been a respectable year for Dertzbaugh Construction and we have you, our loyal customers, to thank. Your continued business and referrals have inspired us in these trying economic times. Our staff works hard to provide the quality craftsmanship and excellent value that you expect from the Dertzbaugh name. After 34 years, we remain attentive to earn our reputation with every new job. When you hear us say, *"We appreciate your pride in our craftsmanship"* - you know we mean it!

All of us at Dertzbaugh Construction wish you a wonderful and safe holiday season. Join us in celebration of what is truly important – family and friends, and opportunities inherent with life in America. Once more, we extend our sincerest gratitude for your continued dedication. Happy holidays!!

### ***HAUNTED BY HONEY-DO'S? HOLLER FOR OUR HANDYMAN***

Dertzbaugh Construction's Handyman Services Division has provided a multi-faceted solution for many homeowner projects that never get done otherwise. Our handyman services are managed by Kenny Beachley and his crewmembers. They respond quickly and are very attentive to the customer. Many of you know that already!

Most jobs completed by the Handyman division throughout the past year have involved rotten wood trim replacements, window and door replacements, roofing repairs, installations and adjustments to deck railings and interior drywall repairs. We also have a great painting crew that will handle all your inside and outside professional painting needs.

Kenny has noted that many homeowners would benefit from improvements to their door and window flashing. "It's an area of the home that is often overlooked until water starts pouring in – a common scene during heavy rains," Kenny notes. For an inspection of your flashing, just call.

Call our office to submit your requests for help – no job has ever been too small.

### **WHAT'S NEW!**

Dertzbaugh Construction now offers cleaning services for your shingle roof. Many shingle roofs are stained with dirt, algae, and moss these days. Most people don't know that their roof can be washed with environmentally safe products that do not have any effect on the shingle life. Call us for a quote to clean your roof and save the expense of a roof replacement.

---

### **PLUMBING - "AT YOUR SERVICE"**

Darren and his crew have provided kitchen and bath remodeling and renovations for many years. But, you may not know that Dertzbaugh Plumbing Division also makes house calls – for service that is. Our truck is always stocked and ready to go, so stop putting off that dripping faucet or pesky leak. Most service calls are scheduled for completion within 48 hours.

## ***PREPARE FOR COLD WEATHER***

We are entering a busy yet beautiful time of year but don't let the foliage and food make you forget what can happen as the weather turns cool. Regular maintenance is your best defense against extreme weather conditions. Please remember these helpful, money-saving tips:

- Protect wood from moisture by performing regular painting and caulking. Check exterior surfaces annually. Areas with failing caulk should be stripped and re-caulked. Fresh paint and caulk will typically last 2 or more years.
- If water damage has already caused exterior wood trim (door and window frames, etc) to rot, prevent structural damage by replacing doors, windows and other trim as needed.
- Avoid frozen pipes by turning off the water supply to your outside faucets, removing hoses and draining off any water left in the pipes.
- Clean filters in furnaces, and vents for all airflow systems, including your dryer – you'll get better and cleaner airflow and possibly prevent a fire.
- Free gutters of debris to allow water from your rooftop to flow into downspouts.
- Christmas will soon be here, and time to install your roof decorations before the weather turns icy.

Not up to doing the work yourself? Just call **Dertzbaugh Construction**.

### **MEET OLINDA TATE**

Olinda Tate is our Office Administrator. She is a Jefferson resident and has a BA degree in accounting. She has been with us for just over a year and has come to be the anchor for our office and the 'go to person' for our staff. She does the payroll, accounts payable, accounts receivable, maintains supplies, and, of course, is usually the first person you will speak with whenever you call us.

Olinda has a boy and girl. The son has recently joined the Air Force and will be serving his country for a while. Of course Mom is proud and worried. Olinda's husband has his own floor cleaning business and can do most any type of carpet. Call her for details. She has the cleanest carpet around!

### **BUTTERNUT SQUASH**

- 2 C cooked butternut squash
- 1 C grated cheese
- 1 C chopped onion
- 1 C crushed Ritz crackers
- Small can evaporated milk
- 3/4 stick butter
- Salt and pepper to taste

Put in well-greased baking dish and bake at 375° for 40 minutes.
