Fall 2010

Dertzbaugh Handyman Service Div.

"YOUR NEIGHBORHOOD CONTRACTOR for over 35 YEARS!"

YOU NEED TO KNOW!

At **Dertzbaugh Construction**, we are working hard to refine and improve our company to keep up and sometimes ahead of our customer needs and business trends. Here is what **YOU NEED TO KNOW!**

FIRST: Dertzbaugh Construction is relocating their offices to **7313 Unit C Grove Rd, Frederick, Md 21704**. If you can't reach us a **301-703-4000**, try us **301-378-2380**. We know the economy is changing, our customer base is changing, and our needs are changing, so we are trying to keep ahead of trends and business demands.

SECOND: We are now certified Lead-Based Renovators as is required by new guidelines put forth by the EPA. We hope you don't have a lead issue, but if you do we are one of only a few contractors that are certified in this area. Call us for more information.

THIRD: We have started a new subsidiary company which will be able to clean off stains you may have noticed on many of the roof-shingled homes in the area, including yours. This company is called **UGLY ROOF BUSTERS**. We have been getting calls from people wanting to know how to get the stains off their roof or if they have to replace their roof because of these stains. So we researched for information on how and what to use on shingle roofs that would not affect the shingle or its warranty. We can offer a spray-on solution (not pressure washed) that will quickly remove the stains (an algae called *Gloeocapsa Magma*). This is not a permanent cure, but typically it will not return for several years and will save thousands of dollars in roof replacement. **You can have the new roof look at a fraction of the cost!** We are taking orders and scheduling appointments for roof cleaning. Give us a call to find out more details: **UGLY ROOF BUSTERS 301-378-2412**.

FOURTH: We can help you keep the **Stink Bugs** out of your house. Many homes have cracks and joints in their windows, doors, siding, and trim that can let these pesky critters in for the winter. We can inspect your home and do preventative work to keep **Stink Bugs** out of your home. Not only will you be eliminating unwanted bugs but you will also be saving money since many of these areas are creating air leakage which will cost you energy!

After being in business for over 35 years, we still build on what you can't always see..**Trust!**
Have a Great Fall.

FRANK

This spider cookies recipe is fun to make with the kids. Licorice legs and candy eyes make these one of those gross recipes for Halloween that's perfect for parties. *Recipe from [California Raisins](#).*

Ingredients:

1/2 cup raisins	1/3 cup almond or peanut butter
3 Tbsp. honey	3 Tbsp. unsweetened cocoa powder
1-3/4 cups brown crispy rice cereal	1 oz. semi-sweet chocolate, melted
thin black licorice strips cut into 96 2-inch pieces	2 Tbsp. powdered sugar
24 miniature M&Ms	

Preparation: Line a baking sheet with foil or wax paper. Place raisins, almond or peanut butter, honey and cocoa powder in a food processor and process until a thick paste forms. Transfer to a large bowl and stir in cereal, using your hands to mix in completely.

1. Form mixture into 12 balls, then press lightly onto prepared baking sheet. Spread a small amount of melted chocolate on the bottom of each crispy rice ball, and slide 8 small pieces of licorice under each to form the spider legs; refrigerate until firm.
2. Stir a few drops of water into powdered sugar to make a thick mixture to "glue" eyes onto spiders. Makes 12 servings.

What's Newer Yet?

Dertzbaugh Construction is now an **ENERGY STAR PARTNER!** Darren Andrews and Frank Dertzbaugh are both **Certified Green Professionals** and built a custom home last year that was 49% more energy efficient than homes built to the energy code of 2006! We are a professional company with the latest in energy efficient techniques and can help you improve energy efficiency and environmental quality. We are also capable of offering **Modular Home** packages that are custom designed/built and offer **Energy Star Ratings!** We are dealing with several modular home manufacturers as preferred contractors and we know which of these companies can offer you the best options and the most cost-effective new home construction. You would be amazed at the custom designs they can offer and the upscale amenities that can be included compared to years ago. You will not beat these manufactured homes in price or quality of product!

No other construction company can offer you so much in professional construction services.
